

**ADR report ID:.....Date:.....**

*Circle the most appropriate point values in the columns and provide justification for allocation of points in the remarks column.*

| Questions   | Yes | No | Do not know | Remarks |
|---|-----|----|-------------|---------|
| 1) Are there previous conclusive reports on this reaction?  | +1  | 0  | 0           |         |
| 2) Did the adverse event appear after the suspected drug was administered?                              | +2  | -1 | 0           |         |
| 3) Did the ADR improve when the drug was discontinued?  | +1  | 0  | 0           |         |
| 4) Did the ADR appear with re-challenge?  | +2  | -1 | 0           |         |
| 5) Are there alternative causes for the ADR?  | -1  | +2 | 0           |         |
| 6) Did the reaction reappear when a placebo was given?  | -1  | +1 | 0           |         |
| 7) Was the drug detected in blood at toxic levels?  | +1  | 0  | 0           |         |
| 8) Was the reaction more severe when the dose was increased or less severe when the dose was decreased? | +1  | 0  | 0           |         |
| 9) Did the patient have a similar reaction to the same or similar drug in any previous exposure?        | +1  | 0  | 0           |         |
| 10) Was the ADR confirmed by any objective evidence?  | +1  | 0  | 0           |         |
| Total Score   |     |    |             |         |

Underline the appropriate range of Naranjo Probability Scale score below taking into consideration the total score.

**> 8 = Definite,      5-8 = probable,      1-4 = possible,      0 = doubtful**
